

Quick Reference Guide to Public Web Docket Sheets

What are Docket Sheets?

Public Web Docket Sheets contain a detailed statement of actions and filings for cases at each level of the courts. They include case information, related cases, a history of calendar events and court dates, a list of charges, docket entries for all filings, and case financial information. Disposition and sentencing information is also displayed if the case has been adjudicated. Public Web Docket Sheets do not contain any confidential information such as addresses, and social security numbers.

How do I find a Public Web Docket Sheet?

To obtain Public Web Docket Sheet information, roll over Docket Sheets in the Navigation Bar, then click on the Court name to search for the desired case or defendant. A search page specific to the selected Court opens.

Cases can be searched by docket numbers or other criteria such as participant name (defendant), OTN, filing dates and more. The available Search Types depend on which Court is selected to search. Select your preferred Search Type in the dropdown list.

Search Type:

- CP/MC Docket Number
- Lower Court Docket Number
- Organization
- OTN
- Participant Name**
- Police Incident Number
- SID

The screen will refresh with the criteria that can be entered depending on the Search Type selected. A minimum amount of information is required for each Search Type. This is indicated with an asterisk next to the required field.

Some Search Types will have required fields but also require information in an additional field. These will be indicated with the phrase "and any combination of". Information in at least one of the fields below that designation must be provided.

Note: Beginning in fall 2009, MDJ Docket Numbers will begin changing to a new format as counties go live with the upgrades to the case management system used by the county courts. When searching by docket number, the docket number field will appear differently when searching in counties that have not yet been upgraded.

After entering the criteria, click SEARCH.

If a required field were not completed, you will receive a message indicating the possible problems:

What is a Court Summary Report?

The Court Summary Report provides information on all of a defendant's cases statewide and is available for Court of Common Pleas and Municipal Court cases. Unlike the docket sheet which provides detailed information on a single case, the Court Summary report displays information about all cases for a particular defendant.

Contents of the Court Summary report include defendant name and date of birth, followed by a list of cases by Status and by county. Details for each case include docket number, defense attorney name, last action/last action date, a list of all charges and disposition information (if the case is already adjudicated). The Court Summary Report is not available for archived cases.
